### CANADIAN MADE AND MANUFACTURED

In these times of tremendous economic uncertainty, many industries turn to offshore manufacturing operations to reduce costs. Trudell Medical International is proud to manufacture the **AeroChamber\*** Brand of Valved Holding Chamber and **AeroEclipse\*** II Breath Actuated Nebulizer at our corporate facility in London, Ontario.

We know that many people have, or know someone who has been affected by the current economic reality, including the loss of Canadian manufacturing jobs and we would like to take the opportunity to *Thank You* for your continued support of our products and employees. Your selection of Canadian manufactured devices secures jobs in Canada.

From our Canadian facility, Trudell has developed an internationally recognized leadership in the development and manufacture of aerosol drug delivery devices that enhance the quality of life for those afflicted with asthma or COPD. Our production teams work in ISO 13485 certified Cleanrooms that meet the highest international standards for the manufacture of medical devices. This high level of certification enables Trudell Medical International to provide patients with products of the highest quality.

Since 1922, Trudell Medical has been committed to innovation, continuous improvement and investment into our facilities and employees in Canada. This commitment has made the **AeroChamber\*** Brand of Valved Holding Chamber the gold standard around the world with devices sold in 100 countries – and we are proudly Canadian.
