

Why should you use an **AeroChamber Plus*** VHC?

AeroChamber
Plus
Valved Holding Chamber

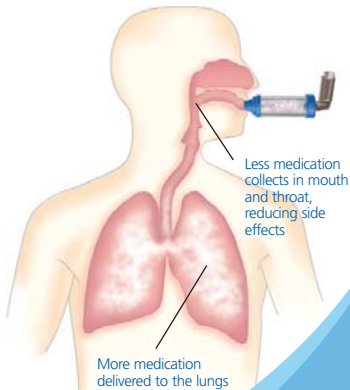

Inhaler Alone

Many patients do not use their inhaler properly. Not enough medication reaches the lungs.¹

Inhaler + **AeroChamber Plus*** VHC

Using the **AeroChamber Plus*** VHC, the patient controls when to inhale. Inhalation is easy and effective.¹

Easy to **Use**... Easy to **Learn**...
...Most Preferred!²

Patient Information

Your Healthcare Professional (HCP) has recommended you use the following **AeroChamber Plus^{*}** Valved Holding Chamber (VHC) with your Metered Dose Inhaler to improve the delivery of your aerosol medication. To obtain your **AeroChamber Plus^{*}** VHC, submit this to your Pharmacist.

AeroChamber Plus^{*} VHC
with infant mask (0 – 18 months¹)

AeroChamber Plus^{*} VHC
with child mask (12 months – 5 years¹)

AeroChamber Plus^{*} VHC
with adult mask (5 years +¹)

AeroChamber Plus^{*} VHC
with mouthpiece (5 years +¹)

Manage Your Asthma

Check your Peak Expiratory Flow (PEF)
daily with a **TruZone^{*}** Peak Flow Meter.

¹ Suggested age ranges are only approximate. To determine proper size, contact your health care provider and request a re-usable mask sizer.
