PARENTS

Doctors recommend switching to a mouthpiece chamber around 5 yrs of age.¹

To help improve lung deposition, children should transition from a mask to a mouthpiece chamber once they are able to form a tight lip seal around the mouthpiece.²

Coverage is Easy – If you are not covered under a public plan, most workplace insurance plans simply require the receipt and prescription with your claim.

Use **AeroChamber Plus*** **Flow-Vu*** Chamber with your inhaler.

Small Mask 0 – 18 months

Medium Mask 1 – 5 years

AC* Girlz* / AC* Boyz* 5 years +

Mouthpiece 5 years +

Large Mask 5 years +
