Compare the objects in each picture and help **AeroBear*** find six things that are different or missing outside his shed.

The object of the game is to make as many boxes as you can. You'll need two people to play this game. Each player takes turns drawing a line to connect two dots. If your line creates a box by closing the fourth side, put your initials in the box and go again. Continue until the whole board is filled with boxes. Whoever has the most boxes wins!
